

PROJECT INTELLIGENCE PLATFORM · PART OF GULLA & PARTNERS

Every project, payment and deadline.
One clear view.

PROVEX gives companies and entrepreneurs a single, secure place to run their projects, follow every payment and keep the whole team on the same page, while the data stays in the client's own cloud.

Plan · Monitor · Achieve

Your cloud
Data is saved in your own Google Drive, not on our servers.

10 languages
English, Arabic, Chinese, Spanish, French, German, Portuguese, Russian, Turkish, Turkmen.

1 month free
Start with a free trial. No installation and no card required.

Try it at **provex.gullaandpartners.com**

WHAT PROVEX DOES

Everything a growing business needs to stay in control

From the first prospect to the last payment, PROVEX connects projects, money, tasks and people in one dashboard that is fast, clear and simple to use.

Live dashboard
Projects by status and priority, cash by month, overdue payments and top clients, all on one screen.

Project management
Clients, budgets, stages, priorities and deadlines for every project, with a clear status at a glance.

Payments & invoices
Paid and owed by project, payments to collect, collection rate and automatic invoice calculations.

Insights report
Cash flow and expenses by category for the next six months, ready to share with management.

Tasks & smart reminders
Deadlines for the next 30 days, with reminders shown Monday to Friday in business hours only.

Prospect pipeline
Track potential clients from first contact to signed contract, so no opportunity is forgotten.

Team access
Invite colleagues by email as editors or viewers. Changes from the team appear automatically.

Protected Excel exports
One click turns your data into a formatted, password-protected Excel workbook.

Smart calculator
Quick business calculations right inside the platform, with no need to switch to another app.

10 languages, incl. Arabic
Each user picks a language. Arabic is shown right-to-left, and the records stay as entered.

Works everywhere
Laptop, tablet or phone, in any modern browser.

Install as an app
Add it to the home screen in one tap.

Works offline
Keep working without internet; it saves when you reconnect.

SECURITY FIRST

Your data stays yours, and only your team can see it

PROVEX was designed around one rule: a client's business information belongs to the client. We built the platform so that we never need to hold it.

Stored in your own cloud

Projects, payments and documents are saved in your own Google Drive, in a dedicated PROVEX folder. PROVEX does not keep a copy on its servers.

Secure Google sign-in

Users sign in with their Google account and PROVEX never sees or stores a password. Two-step verification works as usual.

Minimum access

PROVEX can only open the files it created itself. It cannot read the rest of your Drive, your email or your contacts.

You control who sees what

Only invited colleagues can open the company tracker, as editors or view-only. Access can be removed at any time.

Encrypted everywhere

All traffic is protected with HTTPS encryption and strict browser security rules against tampering and framing.

Verified licences

Every account is checked by the PROVEX licence server before the platform opens. Unlicensed access is blocked.

CERTIFIED INFRA-STRUCTURE

Built on certified, enterprise-grade infrastructure

PROVEX runs on Cloudflare's global network, and your data lives in Google's cloud. Both providers are independently audited and certified to international security standards.

ISO/IEC 27001 · SOC 2 Type II · GDPR-ready · HTTPS / TLS encryption

GETTING STARTED

1

Sign in

Open provex.gullaandpartners.com and sign in with your Google account.

2

Activate

Request your free 1-month trial. Access is confirmed by our team.

3

Invite your team

Add projects, then invite colleagues to work in the same tracker.

WHAT'S COMING NEXT

PROVEX keeps growing with your business

Our roadmap is shaped by our clients. These are the next upgrades, starting with an AI assistant built into the platform.

COMING SOON

PROVEX AI Assistant

A personal business assistant inside PROVEX that reads your plans and figures, then helps you decide.

- Upload your Excel sales plan or budget, and PROVEX calculates the results for you
- Ask questions in plain words: *"What if prices fall by 10%?"*
- Early warnings about risks, delays and unpaid invoices
- Turns a strategy into projects, tasks and reminders in one click
- Answers in your PROVEX language

PRIVATE BY DESIGN

The assistant is optional and starts only with your consent. Your files are used to answer your question, are not used to train AI models, and stay saved in your own cloud.

COMING SOON

Excel import

Bring existing spreadsheets into PROVEX instead of typing data in by hand.

COMING SOON

Email notifications

Automatic confirmations, renewal notices and payment reminders by email.

NEXT

Microsoft 365 & OneDrive

Sign in with Outlook and keep your data in your own OneDrive.

NEXT

Forecasts & scenarios

Cash-flow forecasts with best, expected and worst cases.

NEXT

Calendar & accounting links

Deadlines in your calendar, and exports ready for your accountant.

NEXT

Multi-company dashboards

One overview for groups that run several companies or branches.

Start with a free month

Try every feature free for one month. Then choose the plan that suits your business, for a person or a whole company.
